Accessories

Product overview

Featuring an opaque lens to diffuse the appearance of LED diodes, as well as high quality 3M adhesive tape, the Contour profile is a perfect solution to add ambient lighting to your handleless kitchen.

It's compatible with the full kitchen range of flexible strip lighting, so lighting combinations can be created for any budget, and a range of accessories enable the profile to fit the shape of any kitchen.

Accessories include endcaps as standard to prevent any light leaking out of the sides, as well as internal and external corner connectors.
