Product overview

The Titan+ Push Switch is one of several accessories for the Titan+ low-profile driver. It allows for the activation of all lighting plugged into the driver at the push of a button.

With simple plug and play technology, it is easy to add the Titan+ Push Switch to any new or existing Titan+ driver to increase its functionality and add a premium feel to any kitchen.

Perfect for recessed mounting into a worktop, this accessory is equipped with a 2m connection cable to allow for flexible installation and seamless integration.

Mechanical Specification

Product	Dimensions (mm) (HxWxD)	Weight (g)	IP Rating
SE492250	23.5 x ø11.8	18	IP20

Benefits

- Adds control functionality to the Titan+ Drivers
