

RAY PROFILE KIT

The Ray Profile kit has been designed with the installer in mind, combining the Ray profile and Neutron strip into one solution. Featuring a fully diffused inclined light source, ideal for applications where the light needs to be focused. This feature also prevents glare, making the profile ideal for use in cabinets or wardrobes.

The flexible strip mounting platform has been cleverly angled, which enables the strip to extend around corners when paired with the innovative corner connectors. This results in a fully illuminated light circuit with no dark corners.

BENEFITS
• Provides a diffused light effect
• Ensures the flexible strip will not droop or sag over time
• Provides additional protection to the flexible strip
• 5 year guarantee

KEY FEATURES
• Ultra-slim profile
• Can be cut to size
• Directed light source
• High colour rendering index: Helps make clothes look vibrant

TECHNICAL SPECIFICATION	
Wattage	4.8W/m
Voltage	24V
Lumens (Light output)	540 lm/m
Lumens per Watt	100
Colour temperature	Natural white: 4000K
Beam angle	180°
Colour rendering index	>90
Connector	1.5m at each end
No. LEDs per meter	120
Adhesive Tape	3M VHB (Very high bond)
Operating temperature	-30°C to +45°C
